

Exploring Displays

Using your Contracts page and the Animals Starter File, make each type of display below in pyret. Then sketch the displays and answer the questions. Be sure to add examples of the code you use to your contracts page!

Pie Charts	Bar Charts
<div>Sketch a pie chart here.</div>	<div>Sketch a bar chart here.</div>
Pie charts are constructed from 1 column(s).	Bar charts are constructed from column(s).
They show categorical data.	They show data.
<div>What does this display tell us?</div> <div></div>	<div>What does this display tell us?</div> <div></div>
Box Plots	Histograms
<div>Sketch a box plot here.</div>	<div>Sketch a histogram here.</div>
Box plots are constructed from column(s).	Histograms are constructed from column(s).
They show data.	They show data.
<div>What does this display tell us?</div> <div></div>	<div>What does this display tell us?</div> <div></div>
