

Converting Circles of Evaluation with Booleans to Code

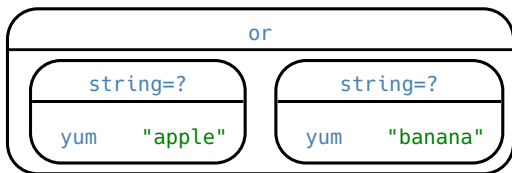

Directions : For each Circle of Evaluation in the left column, write the code that corresponds to the Circle in the right column:

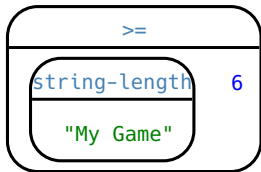

(> (+ 4 5) 9)

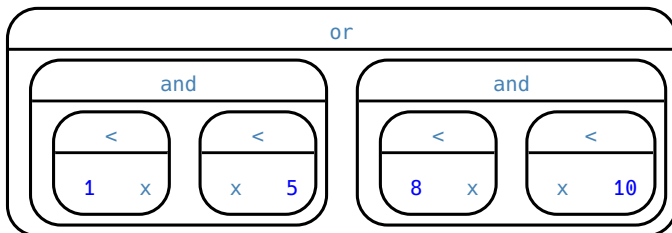

(and (< 5 10) (< 10 15))

(or (string=? yum "apple") (string=? yum "banana"))

(>= (string-length "My Game") 6)

(or (and (< 1 x) (< x 5)) (and (< 8 x) (< x 10)))
