

(More) Exploring Displays

For each type of display, fill in the information below.

Scatter Plot	Linear Regression Plot
<div>Sketch a scatter plot here.</div>	<div>Sketch a linear regression plot here.</div>
<div>Scatter Plots are constructed from <u>2</u> column(s), and show <u>quantitative</u> data. What do you think this display tells us? <u>something about the relationship between two quantitative columns, graphing all pairs of values as points on a plane.</u> <u>This allows us to look for patterns, clusters, trends, etc.</u></div>	<div>LR Plots are constructed from <u>2</u> column(s), and show <u>quantitative</u> data. What do you think this display tells us? <u>something about the relationship between two quantitative columns, graphing all pairs of values as points on a plane, drawing the line of best fit, and showing correlation stats</u></div>
