

The Shape of the Animals Dataset

Describe two histograms made from columns of the animals dataset.

1) Make a histogram, showing the distribution of _____ pounds _____ for _____ animals from the shelter .

your subset, e.g., "fixed dogs from the shelter"
2) Make another histogram, showing the distribution of _____ column in your dataset _____ for _____ .

your subset, e.g., "fixed dogs from the shelter"
3) What do you Notice and Wonder about these two histograms? What shape do they have?

What do you NOTICE?	What do you WONDER?
