## Completing Circles of Evaluation from Arithmetic Expressions (1)

For each arithmetic expression on the left, finish the Circle of Evaluation on the right by filling in the blanks

|   | Math Expression                              | Circle of Evaluation |
|---|--|----------------------|
| 1 | $(5 \times 9) - (2+7)$                       | -<br>* +<br>2        |
| 2 | $(3+12) \hspace{1mm} \times \hspace{1mm} 16$ | *                    |
| 3 | $20 + (-4 \times 6)$                         | * 6                  |
| 4 | $\frac{15}{10 + (4 \times -2)}$              | 15 10                |
